

Plastic Injection Molding

- ✓ Custom plastic injection molding with commodity and thermoplastic engineering resins
- ✓ Custom liquid injection molding with silicone
- ✓ Injection molding of single-cavity, multicavity, and family molds
- ✓ 56-ton press, 2.8-ounce shot
 - ✓ 75-ton press, 3-ounce shot
 - ✓ 85-ton press, 5-ounce shot
 - ✓ 112-ton press, 2.8-ounce shot
 - ✓ 112-ton press, 4.4-ounce shot
 - ✓ 120-ton press, 8-ounce shot
 - ✓ 170-ton press, 8-ounce shot
 - ✓ 170-ton press, 14-ounce shot
 - ✓ 230-ton press, 14-ounce shot
 - ✓ 242-ton press, 13.8-ounce shot
 - ✓ 300-ton press, 30-ounce shot
 - ✓ 315-ton press, 33.8-ounce shot
 - ✓ 500-ton press, 80-ounce shot
 - ✓ 880-ton press, 125-ounce shot
- ✓ Product Design Assistance
- ✓ Design for Manufacturability (DfM) Feedback
- ✓ Material selection and validation
- ✓ Prototyping
- ✓ Performance and management of value-added secondary operations
 - Labeling
 - Ultrasonic Welding
 - Packaging
 - Hot Stamping
 - Insert Molding & Assembly
 - Warehousing
 - Ink Pad Printing
 - Machining
 - Shipping
 - Heat Staking
 - Product Assembly
- ✓ Strict quality inspections to meet or exceed the quality requirements for all products and processes
- ✓ 24/7 operations capability to meet customers' demands
- ✓ In-house collaborative personnel who thoroughly understand the highly interdependent processes of mold building and injection molding to provide what most companies cannot—a true one-stop shop for precision injection molded parts

Expert And Innovative Custom Injection Molding For Those Who Demand PrecisionSM
